

Orange Audio Co Uk

Description:

We are based in North East Essex, and supply sound reinforcement equipment for the entertainmentâ€™ industries. We specialise in live sound engineering for small to medium sized events, with additional expertises on outside field and arena events, as well as inside theatre and concert performances. Orange audio is committed to giving the best price for quality, as well as exceptional customer service, in the local area and further field. We have already established a firm client base to include some well known names from the music and entertainment industries
